

Long Removal Mileage // Cut/Chip Resistance // Resistance to High Scrub // Robust Casing Construction

Regional

For Highway & Local Driving

Engineered for your application. Tires for Regional use are designed for applications where vehicles spend the majority of their time on pavement with multiple stops through inter-city operations, and mostly paved roads. Tires are optimized for high scrub, cut-chip resistance applications, as well as traction.

IMPORTANT NOTE: Tire Products are now classified by route. Product details are subject to change, please visit our website or contact your local sales representative for the most up to date information.
