## The safe choice

M+S

Motorway

Regional

Our new Conti Hybrid HT3+ is the natural next step in the heavy-duty segment. Greatly improved tyre life coupled with outstanding fuel efficiency ensures maximum economic efficiency for fleet operators all year round – validated by the 3PMSF marking – mile after mile after mile.

### Hybrid trailer compound

- › Our Conti Hybrid HT3+ uses an innovative rubber compound with less build-up of heat in both tread and sidewalls
- › The tread polymer makes for reliable rolling resistance and longer service life, while the enhanced sidewall compound delivers greater fuel efficiency in this trailer axle tyre

### Improved rib pattern with new sipe technology

- › The enhanced structure of the rib area delivers more mileage and greater fuel efficiency
- › Newly introduced 3PMSF marking thanks to innovative pocket sipes located in the intermediate ribs

### PRODUCT RANGE

Tyre size	LI/SI	M+S				
385/55 R 19.5	150 J	•	✓	B	C	A / 70 dB
