The ExtremeContact Sport<sup>02</sup> is a dynamic, summer ultra-high performance tire for passenger cars. Ideal for both the street and track, this tire comes complete with SportPlus™ Technology, which provides responsive handling, better grip on wet roads, and extended tread life.

L'ExtremeContact Sport<sup>02</sup> est un pneu d'été dynamique à ultra-haute performance pour véhicules de tourisme. Idéal pour la rue et la piste, ce pneu est doté de la technologie SportPlus<sup>MC</sup> qui offre une tenue de route réactive, une meilleure adhérence sur route mouillée et une durée de vie prolongée de la bande de roulement.

SPORTPLUS

TUNED PERFORMANCE VISUAL INDICATORS  
INDICATEURS DE PERFORMANCE VISUELS

## Features + Benefits

- ▶ **SportPlus™ Technology:**  
Improves tread life and provides precise handling while enhancing grip on wet roads.
- ▶ **Tuned Performance Indicators:**  
D and W symbols in the tread disappear when the tire is no longer tuned for optimum performance in either dry (D) or wet (W) conditions.
- ▶ Superior dry and wet handling
- ▶ Excellent dry and wet braking
- ▶ Exceptional tread life
- ▶ Track-proven performance
- ▶ **Preferred tire of:**
  - + ROUSH Performance
  - + BMW Performance Driving School
  - + AMG Driving Academy

## Caractéristiques + Avantages

- ▶ **La Technologie SportPlus<sup>MC</sup>:**  
Améliore la précision de la tenue de route et la traction sur chaussée mouillée et glissante, tout en offrant une excellente durée de vie de la bande de roulement.
- ▶ **Indicateurs de performance visuels :**  
Des indicateurs alertent le conducteur lorsque le pneu n'offre plus un rendement optimal sur chaussée sèche ou mouillée (DW). Le système de vérification de la géométrie indique au conducteur lorsqu'il est temps de faire vérifier la géométrie des roues du véhicule.
- ▶ Excellente tenue de route sur sol sec et humide
- ▶ Freinage exceptionnel sur sol sec et humide
- ▶ Durée de vie exceptionnelle de la bande de roulement
- ▶ Performance éprouvée sur piste
- ▶ **Pneu préféré de :**
  - + ROUSH Performance
  - + École de conduite BMW Performance
  - + AMG Driving Academy

# SportContact 7

PASSENGER CAR TIRES / ULTRA-HIGH PERFORMANCE / SUMMER  
PNEUS TOURISME / ULTRA HAUTE PERFORMANCE / ÉTÉ

Knowing you can always trust in your tires gives you confidence. The SportContact 7 was engineered to give you the confident feeling of knowing you can push the limits further and further, so that you can simply enjoy driving pleasure at the highest stage.

Savoir que vous pouvez toujours faire confiance à vos pneus vous donne confiance. Le SportContact 7 a été conçu pour vous donner le sentiment de confiance de savoir que vous pouvez repousser les limites de plus en plus loin, afin que vous puissiez simplement profiter du plaisir de conduire au plus haut stade.

TREADWEAR / BANDE DE ROULEMENT	TRACTION / ADHÉRENCE	TEMPERATURE / TEMPÉRATURE	SPEED / VITESSE
240	AA	A	ALL SIZES / TOUTES LES DIMENSIONS

## Features + Benefits

- ▶ **Adaptive Pattern:**  
The adaptive pattern is providing safe and confident driving behavior in combination with next level cornering stability in wet and dry.
- ▶ **Tailor-made construction:**  
The SportContact 7 construction is adapted to the different requirements. We apply different new technologies – inspired by racing sports – size and weight dependently to guarantee the same outstanding performance no matter the vehicle.
- ▶ **Harmonized BlackChili:**  
The perfect balance of the stiff low-void pattern and our soft BlackChili compound enables ultra high-performance driving coupled with significantly increased mileage.

## Caractéristiques + Avantages

- ▶ **Motif adaptatif :**  
L'adaptation du motif offre un comportement de conduite sûr et confiant, associé à une stabilité de virage de niveau supérieur, que ce soit sur sol mouillé ou sec.
- ▶ **Construction sur mesure:**  
La construction du SportContact 7 est adaptée aux différentes exigences. Nous appliquons différentes technologies nouvelles, inspirées des sports automobiles, en fonction de la taille et du poids pour garantir les mêmes performances exceptionnelles, quel que soit le véhicule.
- ▶ **BlackChili Harmonisé :**  
L'équilibre parfait entre le motif rigide à faible cavité et notre composé souple BlackChili permet une conduite ultra-performante associée à une augmentation significative du kilométrage.

# SportContact 6

PASSENGER CAR TIRES / ULTRA-HIGH PERFORMANCE / SUMMER  
PNEUS TOURISME / ULTRA HAUTE PERFORMANCE / ÉTÉ

Designed to meet the demands of the most powerful and sportiest vehicles, this ultra-high performance tire incorporates Continental's latest technologies such as Black Chili and Aralon 350 for responsive handling, high speed stability and uncompromised grip.

Conçu pour convenir aux exigences des véhicules les plus puissants et les plus sportifs, ce pneu ultra-haute performance intègre les plus récentes technologies de Continental, comme Black Chili et Aralon 350 pour offrir une tenue de route nerveuse, une bonne stabilité à haute vitesse et une adhérence sans compromis.

TREADWEAR / BANDE DE ROULEMENT	TRACTION / ADHÉRENCE	TEMPERATURE / TEMPÉRATURE	SPEED / VITESSE
240	AA	A	ALL SIZES / TOUTES LES DIMENSIONS

## Features + Benefits

- ▶ **Black Chili Technology:**  
Enables maximum grip for acceleration, braking, and cornering on both dry and wet roads. This special compound also improves rolling resistance as it continuously adapts to driving conditions.
- ▶ **Aralon 350 Technology:**  
Adaptive hybrid cap ply to maintain maximum stability at high speeds.
- ▶ **Centre Responsive Rib Design:**  
Force vectoring tread pattern to allow instant transmission from steering action to vehicle reaction and provide maximum control even with the smallest steering input.
- ▶ **Excellent Grip in Dry and Wet Conditions:**  
Macro Block Tread optimizes the contact patch and stabilizes the tread blocks against the forces exerted by braking and cornering.

## Caractéristiques + Avantages

- ▶ **Composé Black Chili :**  
Permet une adhérence maximale lors de l'accélération, du freinage et des virages sur route sèche et mouillée. Ce composé spécial améliore également la résistance au roulement en s'adaptant continuellement aux conditions de conduite.
- ▶ **Technologie Aralon 350 :**  
Couche hybride adaptative pour maintenir une stabilité maximale à grande vitesse.
- ▶ **Nervure centrale réactive :**  
Motif de la bande de roulement orientable selon la force, permettant une transmission instantanée des mouvements de direction et assurant un contrôle maximum, même dans le cas des plus petits changements de direction.
- ▶ **Excellente adhérence sur chaussée sèche et mouillée :**  
La bande de roulement à macro-blocs optimise la zone de contact et stabilise les blocs de la bande de roulement face à la force exercée dans les freinages et les virages.

PASSENGER CAR TIRES / ULTRA-HIGH PERFORMANCE / SUMMER  
PNEUS TOURISME / ULTRA HAUTE PERFORMANCE / ÉTÉ

Designed for balanced performance and comfort, this Original Equipment tire incorporates Continental's latest technologies for optimal wet traction, handling and a smooth, quiet ride.

Conçu pour offrir l'équilibre entre la performance et le confort, ce pneu d'origine intègre les plus récentes technologies de Continental pour offrir des caractéristiques optimales en matière de traction sur chaussée mouillée, de tenue de route et de roulement silencieux.

TREADWEAR / BANDE DE ROULEMENT	TRACTION / ADHÉRENCE	TEMPERATURE / TEMPÉRATURE	SPEED / VITESSE

## Features + Benefits

- ▶ **Tuned for Original Equipment Applications:**  
Engineered to meet the performance requirements of the vehicle manufacturer.
- ▶ **Confidence When it Rains:**  
Crystal silica composition provides outstanding grip on wet roads.
- ▶ **Responsive Handling:**  
Advanced macro-block shoulders and asymmetric rib geometry strengthens the tread pattern for sport driving.
- ▶ **Comfortable and Quiet Ride:**  
Smooth pattern stiffness improves ride quality and lowers noise levels.

## Caractéristiques + Avantages

- ▶ **Caractéristiques adaptées pour les applications des équipementiers :**  
Conçu pour respecter les exigences de performance du fabricant du véhicule.
- ▶ **Confiance sous la pluie :**  
Le composé contenant des cristaux de silice offre une adhérence remarquable sur la chaussée mouillée.
- ▶ **Tenue de route réactive :**  
Les macro-blocs d'épaulement évolués et la géométrie asymétrique des nervures renforcent le motif de la bande de roulement pour améliorer la conduite sportive.
- ▶ **Silence et du confort de roulement :**  
La rigidité du motif améliore la douceur de roulement et diminue le niveau de bruit.

# EcoContact 6 & 6Q

PASSENGER CAR TIRES / ULTRA-HIGH PERFORMANCE / SUMMER  
PNEUS TOURISME / ULTRA HAUTE PERFORMANCE / ÉTÉ

Discover more with a tire that needs less. German engineered safety for wherever you go. The EcoContact 6 offers reduced fuel consumption and CO<sub>2</sub> emissions with enhanced mileage thanks to the Green Chili™ 2.0 compound. Master every twist and turn with optimized grip and handling.

Découvrez plus avec un pneu qui a besoin de moins. Le EcoContact 6 offre une consommation de carburant et des émissions de CO<sub>2</sub> réduites avec un kilométrage amélioré grâce au composé Green Chili<sup>MC</sup> 2.0. Maîtrisez chaque virage avec une adhérence et une maniabilité optimisées.

## EcoContact 6

## EcoContact 6Q

## Features + Benefits

- ▶ **The new generation of Green Chili™ brings the newest and most advanced compounding technologies to the eco tire line.**
- ▶ **Maximum fuel efficiency thanks to improved component geometry and efficient silica distribution:**  
The EcoContact 6 strikes an optimal balance between tire size and component distribution. The high-tech compound provides robust connections between the silica and the rubber. This allows an optimal adaptation to varying road conditions, which ultimately improves the tire's rolling resistance and fuel consumption.
- ▶ **Enhanced mileage due to the new Green Chili™ 2.0 compound:**  
The advanced Green Chili™ 2.0 compound adapts to the road surface, which leads to a reduction in the rubber loss throughout its life cycle. As a result, mileage is increased.
- ▶ **Optimized grip and handling experience:**  
The EcoContact 6 offers a tailor-made pattern, resulting in the best compromise between dry and wet performance. It further increases the safety in handling situations such as lane changes. Thanks to its innovative asymmetric rib and sipe geometry, the tire always keeps contact with the road.
- ▶ **The EcoContact 6Q was enhanced with new pattern technologies to reduce noise. Q stands for Quiet!**

## Caractéristiques + Avantages

- ▶ **La nouvelle génération de Green Chili<sup>MC</sup> intègre les technologies de composés les plus récentes et avancées à la gamme de pneus éco.**
- ▶ **Consommation optimale de carburant grâce à une géométrie des composants améliorée et à une répartition efficace de la silice :**  
L'EcoContact 6 trouve un équilibre optimal entre répartition des composés, géométrie des composants et volume du pneu. Le composé de haute technologie fournit des connexions robustes entre la silice et le caoutchouc. Ceci permet une adaptation optimale en fonction des variations des conditions de route, ce qui améliore en fin de compte la résistance de roulement du pneu et la consommation de carburant.
- ▶ **Kilométrage amélioré grâce au nouveau composé Green Chili<sup>MC</sup> 2.0 :**  
Le nouveau composé Green Chili<sup>MC</sup> 2.0 s'adapte à la surface de route. Il réduit aussi la perte de caoutchouc tout au long de son cycle de vie. Par conséquent, le kilométrage est augmenté.
- ▶ **Adhérence et maniabilité optimisées :**  
Grâce à son dessin de semelle optimisé, l'EcoContact 6 offre le meilleur compromis entre la performance sur chaussée sèche et sur chaussée humide. Il améliore ainsi la sécurité, notamment lors des changements de voie. Grâce à sa géométrie asymétrique innovante de nervures et de lamelles, le pneu garde toujours le contact avec la route.
- ▶ **L'EcoContact 6Q a été amélioré avec de nouvelles technologies de motifs pour réduire le bruit. Q est synonyme de tranquillité !**

# ContiSportContact 5P & 5

PASSENGER CAR TIRES / ULTRA-HIGH PERFORMANCE / SUMMER  
PNEUS TOURISME / ULTRA HAUTE PERFORMANCE / ÉTÉ

Its most innovative technology make the ContiSportContact 5 & 5P safe ultra-high performance summer tires for sports cars, offering maximum fun at the wheel.

Extrêmement rapide – même lors du freinage. Une technologie fort innovatrice font du ContiSportContact 5 et 5P des pneus d'été ultra-haute performance sécuritaires pour les voitures de sport, assurant un maximum de plaisir au volant.

## Features + Benefits

- ▶ **Angled 3D Grooves in the Shoulder Blocks:**  
Prevents the macro shoulder block edges from tilting, resulting in a larger effective surface contact area when braking.
- ▶ **Rigid Centre Rib:**  
Optimal circumferential rigidity of the tire reduces the movement in the tread, providing direct transfer of steering forces.
- ▶ **Black Chili Technology:**  
Enables maximum grip for acceleration, braking, and cornering on both dry and wet roads. This special compound also improves rolling resistance as it continuously adapts to driving conditions.
- ▶ **Large Channel Grooves:**  
Structure for optimum water evacuation to provide excellent hydroplaning resistance.

## Caractéristiques + Avantages

- ▶ **Rainures 3D angulaires dans les rebords de blocs :**  
Empêche les rebords des blocs de s'incliner, assurant une plus grande surface de contact avec le sol lors du freinage.
- ▶ **Nervures centrales rigides :**  
La rigidité circonférentielle optimale du pneu réduit le mouvement de la bande de roulement, assurant un transfert direct de la force de direction.
- ▶ **Composé Black Chili :**  
Permet une adhérence maximale lors de l'accélération, du freinage et des virages sur route sèche et mouillée. Ce composé spécial améliore également la résistance au roulement en s'adaptant continuellement aux conditions de conduite.
- ▶ **Large rainures :**  
Structure optimale pour l'évacuation de l'eau, offrant une excellente résistance à l'aquaplanage.

PASSENGER CAR TIRES / ULTRA-HIGH PERFORMANCE / SUMMER  
PNEUS TOURISME / ULTRA HAUTE PERFORMANCE / ÉTÉ

Designed to meet the demands of powerful performance vehicles, this ultra-high performance summer tire promotes shorter braking distances, extra grip and responsive handling.

Conçu pour répondre aux exigences des véhicules de grande puissance, ce pneu ultra-haute performance favorise des distances de freinage plus courtes, une adhérence accrue et une tenue de route réactive.

TREADWEAR / BANDE DE ROULEMENT	TRACTION / ADHÉRENCE	TEMPERATURE / TEMPÉRATURE	SPEED / VITESSE
280	AA	A	MOST SIZES / LA PLUPART DES DIMENSIONS

## Features + Benefits

- ▶ **Asymmetrical Tread Pattern:**  
Additional balance when making sharp maneuvers, grip for faster cornering and additional steering stability at higher speeds.
- ▶ **Ribbed Tread Pattern:**  
Even distribution of braking forces across the entire contact patch for reduced braking distances.
- ▶ **State-of-the-Art Silica Compound:**  
Increases wet handling, dry traction, and treadwear simultaneously versus traditional carbon black compounds.
- ▶ **Original Equipment Design:**  
Performance tuned to match your vehicle's specifications.

## Caractéristiques + Avantages

- ▶ **Bande de roulement à motif asymétrique :**  
Une stabilité accrue lors de manœuvres abruptes, une adhérence optimisée pour des virages plus rapides, et une stabilité de direction supplémentaire à des vitesses plus élevées.
- ▶ **Bande de roulement à motif nervuré :**  
Assure une distribution uniforme de la force de freinage sur toute l'aire de contact, réduisant les distances de freinage.
- ▶ **Composé de silice ultramoderne :**  
Permet des gains de tenue de route sur surfaces mouillées, de traction sur surfaces sèches et de durée de la semelle et ce simultanément, comparativement aux composés traditionnels de noir de carbone.
- ▶ **Conception pour équipementiers :**  
La performance optimisée pour les spécifications de votre véhicule.

PASSENGER CAR TIRES / ULTRA-HIGH PERFORMANCE / SUMMER  
PNEUS TOURISME / ULTRA HAUTE PERFORMANCE / ÉTÉ

Ultra-high performance summer tire for the true car enthusiast. Innovative design provides remarkable handling and outstanding performance at high speeds.

Une performance inégalée pour le vrai passionné de l'auto. Conception innovatrice offrant une maniabilité remarquable et une performance inégalée à haute vitesse.

TREADWEAR / BANDE DE ROULEMENT	TRACTION / ADHÉRENCE	TEMPERATURE / TEMPÉRATURE	SPEED / VITESSE
280	AA	A	ALL SIZES / TOUTES LES DIMENSIONS

## Features + Benefits

- ▶ **Bionic Contour:**  
Provides precise steering and braking response by maintaining even footprint pressure across the tread.
- ▶ **Deformation Resistant Shoulder Grooves:**  
Enhances cornering stability at high speeds.
- ▶ **Wide Water Channels:**  
Allows increase in wet traction and hydroplaning resistance with rapid water evacuation beneath the tread.

## Caractéristiques + Avantages

- ▶ **Contour bionique :**  
Fournit une réponse précise au niveau de la direction et du freinage en maintenant une pression uniforme sur la surface de contact de la bande de roulement.
- ▶ **Rainures d'épaulement résistant à la déformation :**  
Rehaussent la stabilité en virage à vitesse élevée.
- ▶ **Rainures circonférentielles extra larges :**  
Forment des canaux de dispersion, pour l'évacuation rapide de l'eau.

# ExtremeContact DWS<sup>06 Plus</sup>

PASSENGER CAR TIRES / ULTRA-HIGH PERFORMANCE / ALL-SEASON  
PNEUS TOURISME / ULTRA HAUTE PERFORMANCE / TOUTES SAISONS

If you're seeking true, year-round traction, the ExtremeContact DWS<sup>06 Plus</sup> is the ideal all-season tire for you. This ultra-high performance all-season tire comes complete with SportPlus™ Technology which provides precise handling, security on wet, slippery roads, and excellent tread life for an enhanced driving experience.

Si vous recherchez une véritable traction toute l'année, l'ExtremeContact DWS<sup>06 Plus</sup> est le pneu toutes saisons idéal pour vous. Ce pneu toutes saisons ultra-haute performance est doté de la technologie SportPlus<sup>MC</sup> qui offre une tenue de route précise, une sécurité accrue sur chaussées mouillées et glissantes et une excellente durée de vie de la bande de roulement pour une expérience de conduite améliorée.

## Features + Benefits

- ▶ **SportPlus™ Technology:**  
Improves tread life and provides precise handling while enhancing grip on wet roads.
- ▶ **Tuned Performance Visual Indicators:**  
Indicators alert drivers when the tire is no longer performing optimally in Dry, Wet or Snow (DWS) conditions. The Alignment Verification System informs the driver when it's time to check the alignment of the vehicle.
- ▶ Improved dry & wet braking†
- ▶ Enhanced dry & wet handling abilities†
- ▶ Improved snow & ice performance†
- ▶ Unique, stylish design
- ▶ Exceptional tread life

†Based on internal testing of ExtremeContact DWS<sup>06 Plus</sup> versus ExtremeContact DWS<sup>06</sup> in size 225/45 ZR 18. On road results may vary.

## Caractéristiques + Avantages

- ▶ **La Technologie SportPlus<sup>MC</sup>:**  
Améliore la précision de la tenue de route et la traction sur chaussée mouillée et glissante tout en offrant une excellente durée de vie de la bande de roulement.
- ▶ **Indicateurs de performance visuels :**  
Des indicateurs alertent le conducteur lorsque le pneu n'offre plus un rendement optimal sur chaussée sèche, mouillée ou enneigée (DWS). Le système de vérification de la géométrie indique au conducteur lorsqu'il est temps de faire vérifier la géométrie des roues du véhicule.
- ▶ Freinage amélioré sur chaussée sèche et mouillée†
- ▶ Amélioration de la tenue de route sur chaussées sèches et mouillées†
- ▶ Performance accrue sur la neige et glace†
- ▶ Design unique et élégant
- ▶ Durée de vie exceptionnelle de la bande de roulement

†Basé sur des tests internes d'ExtremeContact DWS<sup>06 Plus</sup> versus ExtremeContact DWS<sup>06</sup> de dimension 225/45 ZR18. Résultats sur route peuvent varier.

# ContiProContact

PASSENGER CAR TIRES / PERFORMANCE & TOURING / ALL-SEASON  
 PNEUS TOURISME / PERFORMANCE & TOURISME / TOUTES SAISONS

All-season versatility with phenomenal wet braking performance and year-round traction gives this tire outstanding handling, control and high-speed capabilities.

Polyvalence toutes saisons et toutes conditions. Performance de freinage sur chaussée humide inégalée et adhérence en toutes saisons font que ce pneu offre maniabilité, contrôle et performance à hautes vitesses.

## Features + Benefits

- ▶ **Alternating Convex and Concave Sipe Design:**  
Promotes multidirectional grip and a quiet ride.
- ▶ **Special Shoulder Groove Geometry:**  
Fosters secure cornering and outstanding performance in wet conditions.
- ▶ **Interlocking Tread Sipes:**  
Delivers improved steering response and dry handling.
- ▶ **Innovative All-Season Tread Pattern:**  
Offers a confident and controlled driving experience all year round.

## Caractéristiques + Avantages

- ▶ **Lamelles convexes et concaves alternantes :**  
Adhérence multidirectionnelle supérieure et niveau de bruit réduit.
- ▶ **Géométrie particulière de l'épaulement :**  
Optimise la prise de virage et la performance sur chaussée humide.
- ▶ **Lamelles à l'effet d'emboîtement :**  
Améliore la stabilité et la performance sur sur chaussée sèche.
- ▶ **Sculptures innovatrices quatre-saisons :**  
Offre une performance de conduite contrôlée.

**FREE TOTAL CONFIDENCE PLAN INCLUDED WITH  
 EVERY CONTINENTAL TIRE PURCHASED\***

### Features + Benefits

- ▶ **Original Equipment Design:**  
Performance tuned to match your vehicle's specifications.
- ▶ **Low Density Undertread Compound:**  
Road impacts and vibrations are absorbed for a smooth ride.
- ▶ **Noise blockers on Shoulder Ribs:**  
Keep noise contained within the inner tread area to reduce road noise.
- ▶ **ProContact GX's High Sipe Density:**  
Increases grip in all weather conditions.
- ▶ **ProContact TX's Balanced Sipe to Block Ratio:**  
Promotes excellent all weather grip and handling for touring vehicles.
- ▶ **ProContact RX's Large Shoulder Block Structures:**  
Increases responsiveness for precise handling.

### Caractéristiques + Avantages

- ▶ **Construction optimisée de l'équipement d'origine :**  
Rendement optimisé pour votre véhicule.
- ▶ **Composé de sous-chape à basse densité :**  
Douceur de roulement grâce à l'absorption des chocs et des vibrations de la route.
- ▶ **Réduction du bruit :**  
Nervure de blocage à l'épaule pour maintenir le bruit dans la zone de la bande de roulement.
- ▶ **ProContact GX à densité de lamelles élevée :**  
Accroît l'adhérence dans toutes les conditions climatiques.
- ▶ **ProContact TX au rapport élevé de lamelles par bloc :**  
Favorise d'excellentes caractéristiques d'adhérence et de tenue de route dans toutes les conditions climatiques pour les véhicules de tourisme.
- ▶ **ProContact RX, avec la structure à larges blocs d'épaule :**  
Accroît la réactivité, ce qui procure une tenue de route plus précise.

LIGHT TRUCK & SUV TIRES / ULTRA-HIGH PERFORMANCE / SUMMER  
CAMIONNETTE & VUS / ULTRA HAUTE PERFORMANCE / ÉTÉ

Designed to meet the demands of high performance SUVs and crossovers. This high performance tire incorporates responsive handling and grip for outstanding control.

Conçu pour répondre aux exigences des VUS et multisegments de haute performance. Ce pneu haute performance intègre une maniabilité et une adhérence réactives pour un contrôle exceptionnel.

TREADWEAR / BANDE DE ROULEMENT	TRACTION / ADHÉRENCE	TEMPERATURE / TEMPÉRATURE	SPEED / VITESSE
420	AA	A	MOST SIZES / LA PLUPART DES DIMENSIONS

## Features + Benefits

- ▶ **Asymmetric Tread with Wide Circumferential Grooves:**  
Enhances grip for braking and reduces risk of hydroplaning.
- ▶ **Bionic Contour:**  
Provides precise steering and braking response by maintaining even footprint pressure across the tread.
- ▶ **Advanced Silica Technology:**  
Lowers rolling resistance and enhances wet and dry grip.
- ▶ **Rim Flange Rib Protector:**  
Protects expensive wheels from curb damage.

## Caractéristiques + Avantages

- ▶ **Chape asymétrique avec larges rainures circumférentielles :**  
Accentue le mordant pour le freinage et réduit les risques d'aquaplanage.
- ▶ **Contour bionique :**  
Réduit la distance de freinage et améliore la stabilité en virage.
- ▶ **Technologie de composé à base de silice d'avant-garde :**  
Réduit la résistance au roulement et accentue l'adhérence sur sols secs et humides.
- ▶ **Boudin protecteur de jante :**  
Protège contre les dommages causés par les chaînes de trottoir.

# CrossContact LX<sup>25</sup>

LIGHT TRUCK & SUV TIRES / LUXURY & COMFORT / ALL-SEASON  
CAMIONNETTE & VUS / CONFORT & LUXE / TOUTES SAISONS

If you need a tire that provides improved fuel efficiency, long tread life, and a quiet and comfortable ride, then the CrossContact LX<sup>25</sup> with EcoPlus™ Technology is For What You Do. This second-generation premium SUV and CUV all-season tire delivers excellent wet braking, reduced noise, and snow performance.

Si vous avez besoin d'un pneu qui offre un meilleur rendement énergétique, une longue durée de vie de la bande de roulement et une conduite silencieuse et confortable, alors le CrossContact LX<sup>25</sup> avec Technologie EcoPlus<sup>MC</sup> est idéal pour vous. Ce pneu toutes-saisons haut de gamme de deuxième génération pour les VUS et les multiségments offre un excellent freinage sur chaussée mouillée, un bruit réduit et des performances optimales dans la neige.

ECOPLUS+

TUNED PERFORMANCE VISUAL INDICATORS  
INDICATEURS DE PERFORMANCE VISUELS

## Features + Benefits

- ▶ **EcoPlus+ Technology +Silane:**  
Rubber compound with Tg-F polymers helps reduce rolling resistance for better fuel economy and lower CO<sub>2</sub> emissions. Silane provides an optimum balance of excellent wet braking and extended tread life.
- ▶ **Smooth Response Technology:**  
Continuous circumferential ribs and reinforced shoulders improve handling response and provide a smooth, more comfortable and quiet ride.
- ▶ **Tuned Performance Indicators:**  
Indicators alert drivers when the tire is no longer performing optimally in Dry, Wet or Snow (DWS) conditions. The Alignment Verification System informs the driver when it's time to check the alignment of the vehicle.
- ▶ **Traction Grooves:**  
Promotes snow-on-snow grip for excellent winter performance.

## Caractéristiques + Avantages

- ▶ **La technologie EcoPlus+Silane :**  
Un composé en caoutchouc avec des polymères Tg-F aide à réduire la résistance au roulement pour une meilleure économie de carburant et des émissions de CO<sub>2</sub> plus basses. Le silane offre un équilibre optimal entre un freinage efficace sur sol mouillé et une durée de vie prolongée de la bande de roulement.
- ▶ **La technologie Smooth Response :**  
Des nervures circonférentielles continues et des épaules renforcées assurent une tenue de route réactive, offrant un roulement fluide, plus confortable et silencieux.
- ▶ **Indicateurs de performance :**  
Les indicateurs disparaissent lorsque le pneu ne fonctionne plus de manière optimale dans des conditions sèches, humides ou enneigées (DWS). Le Système de vérification de l'alignement informe le conducteur lorsqu'il est temps de vérifier l'alignement du véhicule.
- ▶ **Rainure de traction :**  
Améliore l'adhérence neige sur neige pour d'excellentes performances en hiver.

# TerrainContact H/T

LIGHT TRUCK & SUV TIRES / PREMIUM HIGHWAY TERRAIN / ALL-SEASON  
CAMIONNETTE & VUS / TERRAIN AUTOROUTE HAUT DE GAMME / TOUTES SAISONS

Designed For What You Do. A premium highway terrain tire for Light Trucks and SUVs, the TerrainContact H/T is strong, durable, and quiet, with a focus on long tread life and exceptional wet braking. Featuring TractionPlus™ Technology, the TerrainContact H/T provides the perfect balance between on-road durability and on-road manners.

Conçu pour correspondre à vos besoins. Le TerrainContact H/T est un pneu de terrain autoroute haut de gamme pour les camionnettes et les VUS. Il est solide, durable et silencieux, avec une bande de roulement longue durée et un freinage exceptionnel sur chaussée mouillée. Doté de la technologie TractionPlus™, le TerrainContact H/T offre l'équilibre parfait entre la durabilité sur route et le comportement sur route.

## Features + Benefits

- ▶ **TractionPlus™ Technology:**  
Balances traction and durability with on-road manners, including exceptional wet grip and low road noise.
- ▶ **All-Season Traction:**  
Traction Grooves provide gripping teeth that lock snow for improved snow grip. Full depth sipes aid in snow and ice traction while providing the comfort and traction needed in wet and dry conditions the rest of the year.
- ▶ **Long Tread Life:**  
A flat contour shape and strong tread shoulders boost tread life and provide even road surface contact.

## Caractéristiques + Avantages

- ▶ **Technologie TractionPlus™:**  
Concilie la traction et la durabilité avec le comportement sur route, y compris une adhérence exceptionnelle sur chaussée mouillée et un faible bruit de roulement.
- ▶ **Traction toutes-saisons :**  
Les rainures de traction fournissent des dents de prise qui se fixent sur la neige pour une meilleure adhérence. Les lamelles à pleine profondeur aident à la traction sur la neige et la glace tout en offrant le confort et la traction nécessaires dans des conditions humides et sèches le reste de l'année.
- ▶ **Durée de vie prolongée de la bande de roulement :**  
Une forme de contour plate et des épaulements solides augmentent la durée de vie de la bande de roulement et assurent un contact régulier avec la surface de la route.

## Features + Benefits

- ▶ **TractionPlus™ Technology:**  
Offers all-terrain capability with off-road traction and durability. Excels in wet braking and provides a comfortable ride.
- ▶ **+Silane Additive:**  
An additive that works to enhance the tire's grip on wet, slippery roads to reduce stopping distances.
- ▶ **Off-Road Traction and Durability:**  
Open tread pattern provides excellent grip on dirt, gravel and grass surfaces while the large stable blocks give robust defense against tire damage.
- ▶ **Traction Grooves:**  
Promotes snow-on-snow grip for excellent winter performance.
- ▶ **Flat Contour Design:**  
Strong shoulder tread blocks along with a flat contour allow for an equal distribution of pressure over the tire for an improved tread life.
- ▶ **Comfortable, Quiet Ride:**  
TractionPlus Technology's noise blockers and optimal pattern shifting reduces the tire noise on paved surfaces.

## Caractéristiques + Avantages

- ▶ **La technologie TractionPlus<sup>MC</sup>:**  
Offre l'équilibre entre la traction hors route et la durabilité tout en offrant une traction exceptionnelle sur chaussée mouillée et un faible volume de bruit.
- ▶ **Additif de +Silane :**  
Un additif visant à améliorer l'adhérence du pneu sur chaussée mouillée et glissante, pour réduire la distance de freinage.
- ▶ **Traction et durabilité hors route :**  
Le motif de la bande de roulement à épaulement ouvert offre une excellente adhérence sur les surfaces en terre et en gravelle et les gros blocs stables offrent une défense efficace contre les dommages.
- ▶ **Rainures de traction :**  
Favorise l'adhérence neige sur neige pour offrir une excellente performance en conditions hivernales.
- ▶ **Contour plat :**  
Des blocs d'épaulement robustes et un contour plat assurent une répartition uniforme de la pression sur le pneu, ce qui prolonge sa durée de vie.
- ▶ **Roulement confortable et silencieux :**  
Les éléments d'atténuation du bruit de la technologie TractionPlus et les variations de motif optimales réduisent le bruit des pneus sur les surfaces pavées.

# VanContact A/S Ultra

VAN TIRE / ALL-WEATHER  
FOURGONNETTE / QUATRE SAISONS HOMOLOGUÉ HIVER

The VanContact A/S Ultra is the new All-Weather Van tire for commercial van customers with high mileage and excellent snow performance.

Le VanContact A/S Ultra est le nouveau pneu toutes saisons pour fourgonnettes commerciales, conçu pour les clients ayant un kilométrage élevé et offrant d'excellentes performances sur la neige.

## Features + Benefits

### ▶ Newest van compound technology:

The newly designed compound offers superb rolling resistance and excellent wear performance.

### ▶ Van pattern technologies:

- + The new Snow Catchers collect and lock snow more effectively in the grooves which provides snow-to-snow traction.
- + The Smart 3D Sipes stabilize the connected blocks with an additional dimensional design which leads to a higher braking performance.
- + The new Tread Wear Indicators are well displayed on the pattern and show the different levels of tire wear in millimeters.

### ▶ Robust sidewall design:

- + The scuff rib extends around the entire sidewall of the tire which provides higher durability.
- + The new brick design protects the sidewall from curb stone damages for a longer tire life.

## Caractéristiques + Avantages

### ▶ Technologie de composé la plus récente pour vans :

Le composé nouvellement conçu offre une superbe résistance au roulement et d'excellentes performances en matière d'usure.

### ▶ Technologies des modèles de van :

- + Les nouveaux Snow Catchers collectent et bloquent la neige plus efficacement dans les rainures, ce qui permet une traction neige contre neige.
- + Les Smart 3D Sipes stabilisent les blocs connectés avec une conception dimensionnelle supplémentaire qui conduit à une meilleure performance de freinage.
- + Les nouveaux indicateurs d'usure de la bande de roulement sont bien visibles sur le motif et indiquent les différents niveaux d'usure des pneus en millimètres.

### ▶ Conception robuste des flancs :

- + La nervure s'étend sur tout le flanc du pneu, ce qui lui confère une plus grande durabilité.
- + Le nouveau design en briques protège le flanc des dommages causés par les bordures de trottoir, ce qui prolonge la durée de vie du pneu.

- ▶ **3-Peak Mountain Snowflake Certification:** Certified for use in severe winter conditions.
- ▶ **Symbole « Montagne et Flocon » :** Certifié pour une utilisation dans des conditions hivernales rigoureuses.

# VikingContact 7

PASSENGER CAR TIRES / WINTER  
PNEUS TOURISME / HIVER

Winter resistance enhanced by German technology. Superb grip performance, tracking stability, traction and braking for all winter conditions.

Une meilleure résistance aux caractéristiques hivernales grâce à la technologie allemande. D'excellentes caractéristiques d'adhérence, de parallélisme et de stabilité, de traction et de freinage pour bien réagir aux conditions hivernales.

## Features + Benefits

- ▶ **Optimized Nordic Compound:**  
Active grip silica for improved wet grip and braking performance. Rapeseed oil composition for superb adaptation to snowy and icy grounds.
- ▶ **Intelligent Pattern Design:**  
Efficient groove network for perfect hydroplaning and slushplaning performance. Interlocked block bridges for enhanced handling characteristics in every weather condition.
- ▶ **Advanced Grip Concept:**  
High number of 3D sipes for increased snow traction and braking. Effective snow edges for powerful handling and braking on snow-covered and icy roads.

## Caractéristiques + Avantages

- ▶ **Composé nordique optimisé :**  
Silice à adhérence active améliorant l'adhérence et le freinage sur chaussée mouillée. Composé intégrant de l'huile de canola, offrant une excellente adaptation à la chaussée enneigée et glacée.
- ▶ **Conception de motif intelligent :**  
Un réseau de rainures efficace offrant une résistance parfaite à l'aquaplanage et au dérapage dans la gadoue. Les blocs interreliés sont plus rigides pour offrir une meilleure tenue de route dans toutes les conditions climatiques.
- ▶ **Concept d'adhérence évolué :**  
Un grand nombre de lamelles en 3D pour une meilleure traction et un meilleur freinage sur la neige. Des arêtes de neige performantes pour une conduite et un freinage puissant sur les routes enneigées et glacées.

**FREE TOTAL CONFIDENCE PLAN INCLUDED WITH EVERY CONTINENTAL TIRE PURCHASED\***

**« TOTAL CONFIDENCE PLAN » INCLUS GRATUITEMENT À L'ACHAT DE TOUT PNEU CONTINENTAL \***

**CUSTOMER SATISFACTION TRIAL  
GARANTIE DE SATISFACTION DU CLIENT**

\* Please visit page 88 for more information on our Total Confidence Plan and Customer Satisfaction Trial.  
\* S'il vous plaît visitez la page 89 pour plus d'informations sur notre « Total Confidence Plan » et Garantie de Satisfaction.

- ▶ **3-Peak Mountain Snowflake Certification:**  
Certified for use in severe winter conditions.
- ▶ **Symbole « Montagne et Flocon » :**  
Certifié pour une utilisation dans des conditions hivernales rigoureuses.

TREAD PATTERN / MOTIF DE BANDE  
DE ROULEMENT

ASYMMETRIC / ASYMÉTRIQUE

The tire for the ambitious driver who demands maximum performance from their sports car or crossover in winter.

Le pneu pour le conducteur exigeant, qui demande la performance maximum de sa voiture sport ou de son véhicule multisegment en hiver.

## Features + Benefits

- ▶ **Snow Grooves:**  
High angular edges beside the tire grooves offer additional grip on snow-covered surfaces.
- ▶ **New Sipe Concept:**  
Specially designed sipes open up the tread pattern to allow a smooth and flexible adaptation on icy and snowy roads for enhanced traction.
- ▶ **Centre Rib:**  
Strong centre rib with unique sipe pattern provides a rigid block structure, delivering optimized dry handling and braking performance.
- ▶ **Large Shoulder Macro Blocks:**  
Large and wide shoulder tread blocks increase tire's lateral stiffness to offer tight handling and steering response.

## Caractéristiques + Avantages

- ▶ **Rainures pour la neige :**  
Des arêtes élevées et angulaires à côté des rainures offrent une adhérence accrue sur les surfaces enneigées.
- ▶ **Nouveau concept de lamelles :**  
Des lamelles spécialement conçues ouvrent le motif de la bande de roulement pour assurer une adaptation souple et en douceur aux surfaces glacées, afin d'accroître la traction.
- ▶ **Nervure centrale :**  
Une nervure centrale robuste, comportant un motif de lamelles unique, offre une structure de blocs rigide pour optimiser la tenue de route et le freinage sur chaussée sèche.
- ▶ **Larges macro-blocs d'épaulement :**  
Des blocs de la bande de roulement volumineux accroissent la rigidité latérale du pneu pour améliorer la tenue de route et la réactivité de la direction.

**FREE TOTAL CONFIDENCE PLAN INCLUDED WITH  
EVERY CONTINENTAL TIRE PURCHASED\***

**« TOTAL CONFIDENCE PLAN » INCLUS GRATUITEMENT  
À L'ACHAT DE TOUT PNEU CONTINENTAL \***

**CUSTOMER SATISFACTION TRIAL  
GARANTIE DE SATISFACTION DU CLIENT**

\* Please visit page 88 for more information on our Total Confidence Plan and Customer Satisfaction Trial.  
\* S'il vous plaît visitez la page 89 pour plus d'informations sur notre « Total Confidence Plan » et Garantie de Satisfaction.

- ▶ **3-Peak Mountain Snowflake Certification:**  
Certified for use in severe winter conditions.
- ▶ **Symbole « Montagne et Flocon » :**  
Certifié pour une utilisation dans des conditions hivernales rigoureuses.

# WinterContact TS 850 P

PASSENGER CAR TIRES / WINTER  
PNEUS TOURISME / HIVER

For winter driving with performance in mind, this tire offers exceptional braking power and enhanced traction on wet and icy roads.

Pour une conduite hivernale axée sur la performance, ce pneu offre une puissance de freinage exceptionnelle et une traction améliorée sur les routes mouillées et glacées.

 3-PEAK MOUNTAIN SNOWFLAKE  
SYMBOLE « MONTAGNE ET FLOCON »

## Features + Benefits

- ▶ **Sipe and Block Orientation for Enhanced Handling:**  
Extraordinary amount of grip edges and sipes allow increased snow handling and traction.
- ▶ **Small Grooves in Between Angled Blocks and Low Sidewall Profile:**  
Improves cornering stability and steering response.
- ▶ **Structurally Reinforced Tread Blocks:**  
Significantly reduces stopping distances on dry surfaces.

## Caractéristiques + Avantages

- ▶ **Orientation des blocs et des lamelles favorisant une meilleure tenue de route :**  
Quantité incroyable d'arêtes et de lamelles adhérentes accroissent la tenue de route et l'adhérence dans la neige.
- ▶ **Petites rainures entre les blocs en angle et le profil bas des flancs :**  
Améliore la stabilité dans les virages et la réactivité de la direction.
- ▶ **Blocs de bande de roulement renforcés structurellement :**  
Réduit considérablement la distance de freinage sur les surfaces sèches.

**FREE TOTAL CONFIDENCE PLAN INCLUDED WITH EVERY CONTINENTAL TIRE PURCHASED\***

**« TOTAL CONFIDENCE PLAN » INCLUS GRATUITEMENT À L'ACHAT DE TOUT PNEU CONTINENTAL \***

**CUSTOMER SATISFACTION TRIAL  
GARANTIE DE SATISFACTION DU CLIENT**

\* Please visit page 88 for more information on our Total Confidence Plan and Customer Satisfaction Trial.  
\* S'il vous plaît visitez la page 89 pour plus d'informations sur notre « Total Confidence Plan » et Garantie de Satisfaction.

- ▶ **3-Peak Mountain Snowflake Certification:**  
Certified for use in severe winter conditions.
- ▶ **Symbole « Montagne et Flocon » :**  
Certifié pour une utilisation dans des conditions hivernales rigoureuses.

# ContiWinterContact TS 830 P

PASSENGER CAR TIRES / WINTER  
PNEUS TOURISME / HIVER

RIM DIAMETER / DIAMÈTRE DE JANTE

16" - 21"

ASPECT RATIO / RAPPORT D'ASPECT

30 - 60

TREAD PATTERN / MOTIF DE BANDE DE ROULEMENT

ASYMMETRIC / ASYMÉTRIQUE

Designed for high-performance vehicles, the WinterContact TS 830 P provides a high level of traction and handling on snow and ice-covered roads.

Conçu pour les véhicules à haute performance, le pneu WinterContact TS 830 P offre une excellente traction et une tenue de route exceptionnelle sur les routes enneigées et glacées.

## Features + Benefits

- ▶ **Dense Shoulder Blocks with Multiple Gripping Edges:**  
Allows the tire to cut into snow effectively to optimize traction and stopping performance.
- ▶ **Rigid Centre Blocks with Serrated Sipes:**  
Offers great dry steering response while sipes allow enhanced braking performance on icy and wet roads.
- ▶ **Designed for Vehicle Electronic Stability Control Systems (ESC):**  
Unique tread design is optimized with the braking intervention of modern ESC systems to offer a greater braking and stability effect.

## Caractéristiques + Avantages

- ▶ **Blocs d'épaulement denses et comportant de multiples arêtes agrippantes :**  
Le pneu mord plus efficacement dans la neige pour optimiser la traction et les freinages.
- ▶ **Blocs centraux rigides et lamelles dentelées :**  
Excellente réactivité de la direction. Les lamelles offrent un excellent rendement de freinage sur les chaussées mouillées et glacées.
- ▶ **Conçu pour le système de contrôle électronique de stabilité (CES) des véhicules :**  
La conception unique de la bande de roulement est optimisée pour l'intervention lors du freinage des systèmes de CES modernes, afin d'offrir un meilleur freinage et d'accroître l'effet de stabilisation.

**FREE TOTAL CONFIDENCE PLAN INCLUDED WITH EVERY CONTINENTAL TIRE PURCHASED\***

**« TOTAL CONFIDENCE PLAN » INCLUS GRATUITEMENT À L'ACHAT DE TOUT PNEU CONTINENTAL \***

- ▶ **3-Peak Mountain Snowflake Certification:**  
Certified for use in severe winter conditions.
- ▶ **Symbole « Montagne et Flocon » :**  
Certifié pour une utilisation dans des conditions hivernales rigoureuses.

# VanContact Winter

VAN & CAMPER TIRES / WINTER  
FOURGONNETTE ET CAMPING-CAR / HIVER

Ideal companion for commercial vehicles in the winter season. The VanContact Winter is the reliable expert for a safe and economical drive on snow and icy roads.

Le compagnon idéal des véhicules commerciaux durant la saison hivernale. Le pneu VanContact Winter est l'expert de confiance qui vous procurera une conduite économique et sécuritaire sur les routes enneigées et glacées.

## Features + Benefits

- ▶ **Optimized 3D Sipes:**  
Interlocking sipes reinforce tread block stability for excellent load carrying capacity, providing exceptional wet, snow, and ice traction.
- ▶ **Directional Pattern with Wide Tread Grooves:**  
Allows the tire to efficiently displace water for dependable wet grip while minimizing hydroplaning.
- ▶ **Designed for Efficiency:**  
New silica compound combined with a flat contour tread surface keeps rolling resistance low with extended tread life.

## Caractéristiques + Avantages

- ▶ **Lamelles 3D optimisées :**  
Les lamelles entrelacées renforcent la stabilité du bloc, ce qui procure à la fois une excellente capacité de charge et une traction exceptionnelle sur chaussée mouillée, enneigée ou glacée.
- ▶ **Motif directionnel comportant de larges rainures de la bande de roulement :**  
Permet au pneu d'évacuer efficacement l'eau afin d'assurer un meilleur contrôle dans l'eau et minimiser l'aquaplanage.
- ▶ **Conçu pour l'efficacité :**  
Le nouveau composé à base de silice, combiné à une bande de roulement à contour plat, maintient une bonne résistance au roulement et accroît le kilométrage utile du pneu.

The tire that will tackle any road in the winter. The advanced design provides optimum traction, handling and wear.

Ce pneu abordera toutes les routes cet hiver. Le motif avancé offre traction, tenue de route et usure optimales dans les pires conditions de neige et de glace.

## Features + Benefits

- ▶ **Progressive Interlocking Sipes:**  
Provides maximum biting edges for traction.
- ▶ **Asymmetrical Tread Design:**  
Offers optimum traction, handling and wear.
- ▶ **Designed for High Speed Requirements:**  
Sizes available in H speed ratings.

## Caractéristiques + Avantages

- ▶ **Lamelles à entrelacement progressif :**  
Offre un nombre maximal de mordants de traction.
- ▶ **Motif asymétrique de la bande de roulement :**  
Traction, tenue de route et usure optimales.
- ▶ **Conçu pour les exigences de la haute vitesse :**  
Dimensions disponibles dans les indices de vitesse H.

Performance hivernale conçue pour votre véhicule utilitaire.

 3-PEAK MOUNTAIN SNOWFLAKE  
SYMBOLE « MONTAGNE ET FLOCON »

## Features + Benefits

- ▶ **Advanced Silica Compound and Strong Siped Block Design:**  
Excellent traction and braking performance on snow and ice.
- ▶ **Optimized Sipe Concept:**  
Provides stable outer shoulder for outstanding handling on dry and snow-covered roads.
- ▶ **Wide Circumferential Tread Grooves:**  
Enhanced protection against hydroplaning.
- ▶ **Advanced Tread Technology:**  
Quiet ride and low rolling resistance.

## Caractéristiques + Avantages

- ▶ **Composé de silice avancé et motif de blocs à lamellage robuste :**  
Une traction exceptionnelle et des performances de freinage optimales sur neige et glace.
- ▶ **Concept optimisé de lamelles :**  
Stabilise l'épaulement extérieur pour une tenue de route exceptionnelle sur les surfaces enneigées et sèches.
- ▶ **Larges rainures circumférentielles et lamelles optimisées pour l'écoulement :**  
Améliore la résistance à l'aquaplanage.
- ▶ **Bande de roulement de technologie avancée :**  
Roulement silencieux et de faible résistance.

# Tire Tread Depth Chart / Tableau d'épaisseur des sculptures

Passenger car, light truck and SUV tire depth conversion table to percentage of wear.

Tableau de conversion de la profondeur des sculptures / % d'usure pour pneu tourisme, camionnette et VUS.

All numbers to the right designate the percentage of usable tread remaining, used to determine credit due to customer toward the purchase of a replacement tire. The numbers to the left designate the percentage of usable tread worn, to determine customer's charge for a replacement tire.

Les chiffres de droite désignent le pourcentage de la chape non-usée et servent à la détermination du montant à créditer au client lors de l'achat d'un pneu de remplacement. Les chiffres de gauche représentent le pourcentage d'usure de la chape et doivent être utilisés pour calculer le montant à facturer au client lors de l'achat d'un pneu de remplacement.

To obtain the remaining tread depth, take 3 measurements around the tire and average. Locate (below) the tire's original tread depth. Read down and across matching the tire's measured remaining tread depth. Use the percentages shown as a charge and/or credit towards the purchase of a replacement tire.

Pour déterminer le pourcentage d'usure, mesurez la semelle à trois endroits différents sur le pneu. Repérer dans le tableau ci-dessous la profondeur initiale des sculptures de la chape. Repérer le chiffre correspondant à la profondeur de sculptures restantes et utiliser le pourcentage indiqué pour déterminer le montant du crédit accordé au client ou le coût lors de l'achat de pneus de remplacement.

# Warranty

## Have Total Confidence with your Continental Tire purchase!

### Road Hazard Coverage<sup>1</sup>

Continental's Road Hazard Coverage is unique in the industry because it applies to all Continental passenger and light truck tires that are purchased as replacement, and provides a comparable replacement tire within the first 12 months<sup>2</sup>.

### Limited Warranty<sup>1</sup>

All Continental passenger and light truck tires are eligible for the Limited Warranty for a maximum of up to 72 months from the date of purchase. The Limited Warranty allows for free replacement within the first 12 months<sup>2</sup>.

### Customer Satisfaction Trial<sup>1</sup>

Continental passenger and light truck tires purchased as replacement bearing the Continental name and D.O.T. serial numbers are covered for 60 days. Please see Total Confidence Plan brochure for complete details.

### Mileage Warranty<sup>1</sup>

Coverage on select replacement products up to 128,000 kms.

### Flat Tire Roadside Assistance<sup>1</sup>

Three (3) year complimentary flat change or towing up to 250 kms at no charge. Tires must be registered online at [www.totalconfidence-plan.com](http://www.totalconfidence-plan.com) to qualify for Flat Tire Roadside Assistance. Coverage is valid on replacement passenger and light truck tire purchases made on or after February 1, 2015.

### Emergency Trip Interruption Coverage<sup>1</sup>

Three (3) years complimentary service designed to help reimburse the eligible expenses resulting from a mechanical breakdown during a road trip. Tires must be registered online at [www.totalconfidence-plan.com](http://www.totalconfidence-plan.com) to qualify for Emergency Trip Interruption Coverage. Coverage is valid on replacement passenger and light truck tire purchases made on or after January 1, 2022. Limit \$200.00 per day maximum benefit, and a total annual maximum benefit of \$500.00.

<sup>1</sup> For more information on the Total Confidence Plan, we encourage you to visit our website at [continental-tires.com/ca/en/b2c/car/technical-services/total-confidence-plan](http://continental-tires.com/ca/en/b2c/car/technical-services/total-confidence-plan). For additional safety and maintenance information, please also visit THE TIRE AND RUBBER ASSOCIATION OF CANADA (TRAC) website at [www.tracanada.ca](http://www.tracanada.ca). To order hard copies of our warranty brochures, please contact our customer service at 1-855-453-1962.

<sup>2</sup> Coverage is within the first 12 months from the date of purchase or the first 2/32nds treadwear, whichever comes first.

## Ayez une confiance totale en votre achat de pneus Continental !

### Couverture des risques routiers<sup>1</sup>

La couverture des risques de la route de Continental est unique dans l'industrie, car elle s'applique à tous pneus de tourisme et de camionnette Continental qui sont achetés comme pneu de remplacement, et qui fournit un remplacement comparable dans les 12 premiers mois<sup>2</sup>.

### Garantie limitée<sup>1</sup>

Tous les pneus de tourisme et de camionnette Continental sont admissibles à la garantie limitée pour un maximum de 72 mois à partir de la date d'achat. La garantie limitée permet un remplacement gratuit dans les 12 premiers mois<sup>2</sup>.

### Essai de satisfaction de la clientèle<sup>1</sup>

Les pneus de tourisme et de camionnette Continental achetés en remplacement portant le nom Continental et le numéro de série D.O.T. sont couverts pour concurrence de 60 jours. S'il vous plaît, voir la brochure « Total Confidence Plan » pour plus de détails.

### Garantie de kilométrage<sup>1</sup>

Couverture sur certains produits de remplacement jusqu'à 128 000 kms.

### Assistance routière en cas de crevaison<sup>1</sup>

Trois (3) années de couverture pour changements gratuits de pneu à plat ou remorquage jusqu'à 250 kilomètres sans frais. Les pneus doivent être inscrits en ligne sur [www.totalconfidence-plan.com](http://www.totalconfidence-plan.com) pour se qualifier pour l'assistance routière pour crevaison. La couverture est valable pour les pneus passagers et de camionnettes achetés le ou après le 1er février 2015.

### Couverture pour interruption de voyage en cas d'urgence<sup>1</sup>

Service gratuit de trois (3) ans conçu pour aider à rembourser les dépenses admissibles résultant d'un bris mécanique lors d'un voyage en voiture. Les pneus doivent être enregistrés en ligne sur [www.totalconfidence-plan.com](http://www.totalconfidence-plan.com) pour bénéficier de la couverture d'interruption de voyage d'urgence. La couverture est valide pour les achats de pneus de remplacement pour passagers et camionnettes effectués le 1er janvier 2022 ou après. Limite de 200,00 \$ par jour de prestation maximale et une prestation maximale annuelle totale de 500,00 \$.

<sup>1</sup> Visitez [continental-tires.com/ca/fr/b2c/car/technical-services/total-confidence-plan/](http://continental-tires.com/ca/fr/b2c/car/technical-services/total-confidence-plan/) pour obtenir de plus amples renseignements sur le « Total Confidence Plan ». Nous vous invitons également à visiter le site internet de l'Association canadienne du pneu et du caoutchouc (TRAC) [www.tracanada.ca](http://www.tracanada.ca) pour plus d'informations sur la sécurité et l'entretien. Pour commander des brochures concernant nos garanties, contactez notre service à la clientèle au 1-855-453-1962.

<sup>2</sup> La couverture est pour les 12 premiers mois à partir de la date d'achat ou lors des premiers 2/32e d'usure, selon la première éventualité.

# Tire Registration / Enregistrement des pneus

Tire manufacturers are required to provide tire registration forms to tire dealers/distributors. Tire dealers/distributors who sell directly to consumers are required to provide tire registration forms to consumers at the time of sale or access to online tire registration. Tire dealers/distributors are also required to supply tire registration information to other dealers for resale (or “resellers”).

When completing and mailing the tire registration forms, it is very important that you list all of the information completely and accurately for the reasons stated above. Please fill out the shaded areas of the tire registration form (see example below) and include the name of the dealer/distributor, address, quantity of tires sold, and the complete D.O.T. Tire Identification Number for the tire(s) sold. If you assist the consumer, complete and mail the registration forms, list their full name, complete address section, apply sufficient postage, and mail.

If you do not complete and mail the registration form for the customer, please fill out the shaded areas of the tire registration form (see example below) and include the name of the dealer/distributor, address, quantity of tires sold, and the complete D.O.T. Tire Identification Number for the tire(s) sold. Then the customer enters their name and address on the form, applies postage and mails the form.

Online registration is available on [continental-tires.com/ca/en.html](http://continental-tires.com/ca/en.html). You may contact our Customer Relations Department at 1-855-453-1962 if you have questions about tire registration.

## Important

In case of a recall, we can reach you only if we have your name and address. **You MUST send in this card to be on our recall list. DO IT TODAY!**

**CONTINENTAL**

Les manufacturiers doivent fournir des formulaires d'enregistrement à tous leurs revendeurs de pneus. Les marchands et distributeurs qui vendent des pneus directement au consommateur sont tenus de lui remettre un formulaire d'enregistrement au moment de la vente, ou de lui donner accès pour un enregistrement en ligne. Les marchands et distributeurs doivent aussi fournir les formulaires d'enregistrement aux revendeurs.

Il est important de bien compléter le formulaire d'enregistrement pour les raisons mentionnées ci-dessus. Les sections ombragées doivent être complétées (voir l'exemple ci-dessous) avec le nom du marchand/vendeur, adresse, quantité vendue et le numéro d'identification D.O.T pour les pneus vendus. Si vous complétez le formulaire pour le client, assurez-vous d'y inclure le nom du client et son adresse postale complète avant de poster le tout.

Si vous ne vous chargez pas de compléter et d'envoyer le formulaire pour le client, vous devez remettre le formulaire d'enregistrement au client après avoir inscrit le nom et l'adresse du concessionnaire, le nombre de pneus vendus et le numéro d'identification D.O.T pour les pneus vendus. Le client devra alors ajouter son nom et son adresse sur le formulaire et le poster après l'avoir affranchi.

Vous pouvez faire l'enregistrement de vos pneus en ligne sur [continental-tires.com/ca/fr.html](http://continental-tires.com/ca/fr.html). Veuillez contacter notre service à la clientèle au 1-855-453-1962 pour toute question sur l'enregistrement des pneus.

En cas d'un rappel, nous pouvons vous joindre seulement si nous avons vos coordonnées. **Vous DEVEZ poster ce carton pour être sur notre liste de rappel. À COMPLÉTER DÈS MAINTENANT !**

Continental Tire does not recommend replacing one tire at a time on a vehicle. Fitting a vehicle with an improper mix of tire sizes, constructions, and speed ratings can be dangerous. Consult the vehicle owner's manual to determine proper mixing, matching, or when replacing tires with different sizes, constructions and speed ratings. If all ground tires are not replaced at one time, then at a minimum, Continental Tire recommends replacing all tires on the same axle at one time (see the vehicle owner's manual for 4x4 vehicles for whether there are additional recommendations). This is especially recommended for tires that are listed in this product guide with replacement article numbers. Tires that are identified with replacement article numbers are nearly identical to the tires that they are replacing, but may have slight differences. One difference can be the tread design or pattern which can make the replacement tires incompatible for mixing on the same axle as a different tire.

Install four winter tires – to help maintain control and stability of a vehicle in icy conditions, Transport Canada and the Tire and Rubber Association of Canada recommend that you install winter tires in sets of four. A recent Transports Québec and Promutuel study showed that winter tires reduce the stopping distance by up to 25% or between 2 to 3 car-lengths. Mixing tires with different tread patterns, internal construction, and size degrades the stability of the vehicle and should be avoided. As a tire wears, snow traction is reduced. Tires that are worn to 5/32nd have reduced traction and should not be used on snow-covered roads or in severe snow conditions. Proper air pressure extends tread life, improves safety, and reduces fuel consumption – all vital factors in saving energy and protecting the environment.

Continental Tire ne recommande pas le remplacement d'un seul pneu à la fois sur un véhicule. Monter des pneus de grandeur, de construction ou d'indice de vitesse différents sur un véhicule peut être dangereux. Consultez le manuel du propriétaire du véhicule afin d'établir comment appairer, mélanger ou quand remplacer des pneus avec d'autres grandeurs, constructions et indices de vitesse différents. Si tous les pneus en service ne sont pas tout remplacés à la fois, Continental Tire recommande, au minimum, de remplacer les pneus sur un même essieu à la fois (s'il s'agit d'un véhicule 4 x 4, consultez le manuel du propriétaire pour voir s'il y a des recommandations additionnelles). Ceci est particulièrement recommandé pour les pneus catalogués dans ce guide de produits avec des numéros de produits de substitution. Les pneus identifiés avec des numéros de produits de substitution sont presque identiques aux pneus qu'ils remplacent, mais peuvent présenter de minimes différences, l'une de ces différences pouvant être le dessin de la bande de roulement ou la sculpture qui peut s'avérer incompatible en tant que pneu de remplacement s'il est installé sur le même essieu qu'un pneu non identique.

Pour maintenir le contrôle et la stabilité du véhicule sur des routes glacées, Transports Canada et L'Association canadienne du pneu et du caoutchouc recommandent de remplacer les quatre pneus du véhicule par des pneus d'hiver. Une récente étude menée par Transports Québec et Promutuel a révélé que les pneus d'hiver réduisent la distance de freinage jusqu'à 25 %, ou jusqu'à deux ou trois longueurs d'automobile. Il faut éviter d'utiliser sur un même véhicule des pneus possédant des sculptures, une structure interne ou une taille différentes. À mesure qu'un pneu s'use, la traction sur la neige diminue. Les pneus dont l'usure atteint 5/32e po offrent une traction réduite et ne devraient pas être utilisés pour une conduite sur des routes enneigées ou dans des conditions d'enneigement difficiles. Une pression d'air adéquate prolonge la vie de la bande de roulement, améliore la sécurité et réduit la consommation de carburant – autant de facteurs essentiels pour économiser l'énergie et protéger l'environnement.
