

# ContiTrail **ATTACK 2**

## Specially developed road-suitable enduro tire for big and powerful dual-sport motorcycles.

- Better grip even in the wet combined with excellent mileage on long trips, all thanks to innovative compounding technology.
- A stronger carcass along with a progressive tread pattern design on the front wheel ensures increased precision and optimized wear behavior.
- TractionSkin ensures an extremely safe and short run-in time.
- A 0° steel-belt construction on the rear wheel for enhanced stability and comfort even at high speed and with large payloads.
- Original equipment KTM 1290 Super Adventure R.

F = Is primarily used on BMW models  
K = Is primarily used on KTM models  
Z = No special area of application

### MultiGrip

Makes it possible to use a homogenous grip grading with a single compound thanks to temperature controlled curing of the tire during the production process. • besserer Grip dank flexibler Schulterbereiche

- Shoulder area, flexible = Grip
- Central tread area, wear resistant = Mileage
- Continuous transition

### TractionSkin

TractionSkin, a revolutionary new micro-rough tread surface, virtually puts an end to tire break-in. This is possible due to a new mold coating technology which eliminates the need for tire-release agents.

### ZeroDegree

0° steel-belt construction guarantees excellent stability at high speeds.

### RainGrip

Optimized compound for superior wet grip, which is made possible by a specially activated silica compound. This ensures optimum grip right down to the microscopic level of the road surface.

### Handmade in Germany

For generations nearly all of our radial tires have been produced with great passion, skill and expertise in Korbach on the beautiful lake Eder.
