A Next-Generation Solution for Easier Casing Management and Maximum Retreadability

Increased Belt Cord Angles

Belt features increased stiffness and improved penetration resistance. Innovative belt package designed to reduce heat and increase durability.

Increased Tread Volumes

Wider tread platform allows the casing to better support the tire's given load range. Tread features a wide cavity, with a standard retread width to provide a single platform for greater ease of retreading.

Technologically Advanced Bead Core

Core designed for structural durability and extended product life. Core is made from a tear-resistant compound at steel cord edges.
