TUBELESS TIRES ON 15 DEGREE DROP CENTER RIMS *315/80R22.5 tires used on 8.25” rims are restricted to a maximum of 7610 lbs at 120 psi.

Note: - Rim listed first is the measuring rim. - Intelligent Tire Article #. Minimum Dual Spacing calculated without chains. - Exceeding the lawful speed limit is neither recommended nor endorsed. Overall widths will change 0.1 inch (2.5 mm) for each 1/4 inch change in rim width. 315/80R22.5 tires used on 8.25” rims are restricted to a maximum of 7160 lbs at 120 psi. Minimum dual spacing should be adjusted accordingly. Continental Tire the Americas, LLC reserves the right to change product specifications at any time without notice or obligations. Please consult rim manufacturers load and inflation limits. Never exceed rim manufacturers limits without permission of component manufacturer.

Features & Benefits

- Aggressive on/off-road tread design with enhanced cap/base compounds for improved mileage and traction
- Self-cleaning tread design and groove geometry reduces stone retention for enhanced retreadability
- Maximum sidewall protection for improved resistance against curbing, cuts and abrasions
- Built on the innovative Conti 3G Casing with premium off-road belt package for maximum retreadability and increased casing life
- Equipped with TPMS Sensor for accurate, real-time tire pressure and temperature readings
- Sensor warranted for 5 Years to minimize disruptions
- Sensor provides true casing temperature allowing preventive actions that make your tire last longer
- Avoids valve damage and air leaks by mounting on the inner liner
- This product is Mud + Snow Certified

Applications: Construction, coal haulers, logging and other all-position service.
