HDC1 HT

High-Traction Drive

Diamond shaped tread lug design
and shoulder notches are optimal for chaining.

Alternating groove geometry
and stone bumper system for maximum stone ejection.

M+S
Mud + Snow Designation

HDC1 HT
High-Traction Drive

Rigid belt package with full width top belt and extra sidewall protection for increased durability.

Diamond shaped tread lug design and shoulder notches are optimal for chaining.

Alternating groove geometry and stone bumper system for maximum stone ejection.

Built on the **Continental 3G Casing** for maximum retreadability.

Key Features

M+S
Mud + Snow Designated

TUBELESS TIRES ON 15 DEGREE DROP CENTER RIMS

■ STANDARD ARTICLE ■ INTELLIGENT ARTICLE

Note: Rim listed first is the measuring rim. Minimum Dual Spacing calculated without chains. These specifications subject to change without notice. # - Exceeding the lawful speed limit is neither recommended nor endorsed. Overall widths will change 0.1 inch (2.5 mm) for each 1/4 inch change in rim width. Minimum dual spacing should be adjusted accordingly. Continental Tire the Americas, LLC reserves the right to change product specifications at any time without notice or obligations. Please consult rim manufacturers load and inflation limits. Never exceed rim manufacturers limits without permission of component manufacturer.
