## SUV categories in South Africa

The SUV category in the South African vehicle market has shown significant growth, to the point that there are four sub-categories. Crossovers are smaller passenger-car based vehicles with slightly increased ground clearance and styling enhancements for added differentiation. Compact SUV's are slightly larger and sometimes feature permanent all-wheel-drive for better off-road traction on loose surfaces. Medium SUV's offer more space, features and many have all-wheel-drive.

The large SUV segment comprises of the traditional ladder-frame vehicles (Toyota Fortuner and Ford Everest) and premium/luxury vehicles (Land Rover Discovery, Porsche Cayenne and Toyota Landcruiser 300). Many of these vehicles are equipped with low-range 4x4 for excellent off-road performance.

### CROSS-OVER

Omoda C5

Suzuki Fronx

Volkswagen T-Cross

Chery Tiggo 4 Pro

### COMPACT

Toyota RAV4

Renault Duster

Volkswagen Tiguan

Suzuki Vitara

### MEDIUM

Volvo XC40

MBenz GLC

Haval H6

Hyundai Tucson

### LARGE

Porsche Cayenne

Ford Everest

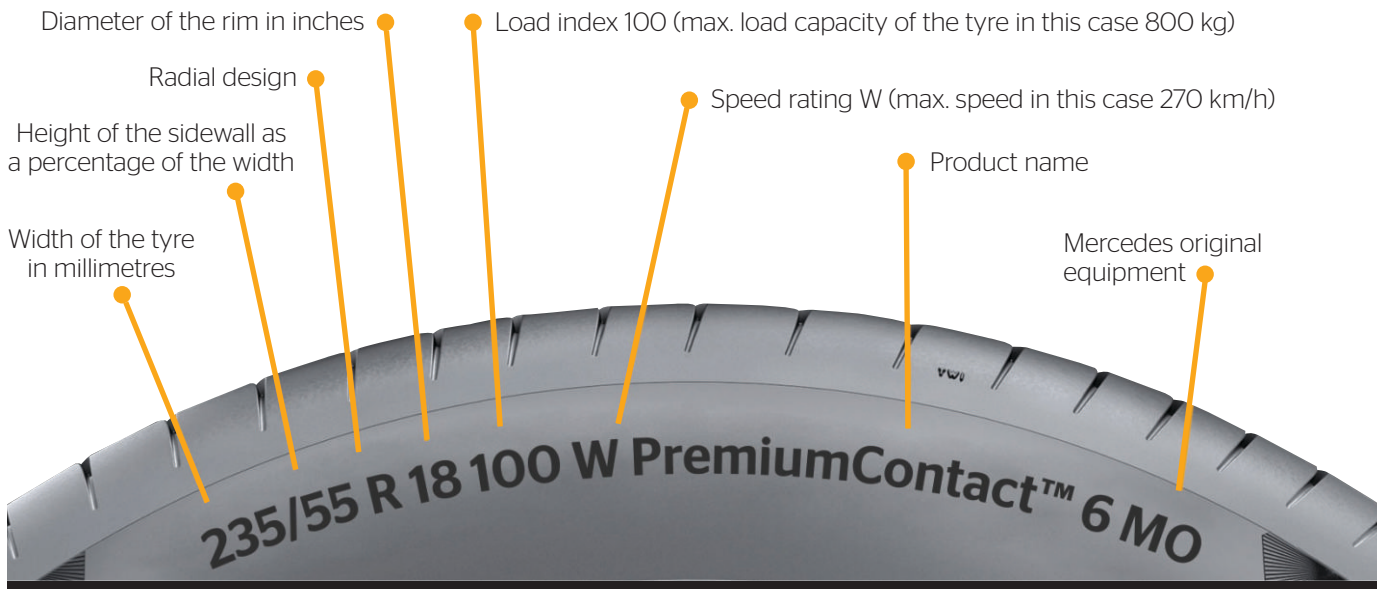

Toyota Fortuner

Land Rover Discovery

## Tyre sidewall information

A quick guide to decoding the information on the tyre sidewall.

## Glossary

### Green Chili

Brings the newest and most advanced compounding technologies to the EcoContact range. The use of high polymer flexibility combined with innovative additives in the Green Chili compound enable the tyres to achieve exceptionally low rolling resistance, with reduced rubber loss throughout the life cycle of the tyre improving its mileage - yet still retaining outstanding dry and wet weather braking and handling performance.

### Yellow Chili in conjunction with Harmonised Pattern Layout

Making its debut in the NEW UltraContact is YellowChili - a new compound developed for balanced and safe driving with outstanding mileage. YellowChili is derived from the Amarillo (Spanish for yellow) Chili, which is one of the oldest chilis in South America and known for a lasting and rounded heat - just like our long lasting and perfectly balanced UltraContact. The latest state of the art ingredients insure increased interlocking and contact with the road surface for outstanding braking performance. The Harmonised Pattern layout refers to a tread pattern design to provide low abrasion with an optimised wear shape.

### Black Chili

Continental's innovative Black Chili tyre technology for its SportContact tyres uses an engineered Micro Flexibility compound that allows the microscopic roughness and irregularities of the road surface to penetrate the rubber and mesh with the tyre, generating micro interlocking between the road and the tyre. This delivers exceptional all-round grip with short braking distances, optimal acceleration and safe cornering on wet and dry roads.

---

### Force Vectoring

Force Vectoring technology uses different tread elements on the inside, centre and outside of the tyre. The innovative rib edge design is asymmetrical, which gives greater cornering stability and enables higher forces to be transferred. On the outer shoulder, the tyre designers interlinked the various block elements into a larger macro block unit. Large tread blocks on the outside are connected to interlinked elements in a second row of blocks. This way the tread blocks provide mutual support during fast cornering and can transfer the high lateral forces with ease.

---

### Aralon 350

A synthetic textile fibre, in which two yarns of high-strength aramid are twisted together with a yarn of flexible nylon and embedded in the rubber. Located beneath the tread, this endless cap ply acts like an additional steel belt, providing extra stabilization to help deal with the enormous centrifugal forces that act on the tyre at very high speeds.

## Original Fitment - On-road

The Continental range of SUV tyres caters to a wide variety of SUV's, delivering optimal performance for those SUV's predominantly used on tar roads. This range covers 14 to 24 inch diameter and speed ratings from 190 km/h to 300 km/h.

### UltraContact

None - Replacement only.

### EcoContact 6 & 6Q

Mini Countryman, Nissan Qashqai, Renault Captur, Renault Kadjar, Volkswagen T-Cross, Volkswagen Tiguan, Volkswagen T-Roc, Volvo XC40, Volvo XC90.

### PremiumContact 6

Audi e-tron GT, Audi Q8, BMW X1, BMW X2, BMW X5, BMW X6, BMW X7, Ford Kuga, Hyundai Kona, Hyundai Tucson, Jaguar I-PACE, Kia Sorento, Kia Sportage, Mercedes-Benz GLA, Mercedes-Benz GLE, Mercedes-Benz GLS, Mini Countryman, Nissan Navara, Porsche Taycan, Toyota C-HR, Volvo XC90.

### PremiumContact 7

Porsche Cayenne, Volkswagen Touareg.

### SportContact 5

Ford Kuga, Volkswagen Tiguan, Porsche Macan, Porsche Panamera, Mercedes-Benz ML, BMW X5, Audi Q7, Range Rover Sport, Mercedes-Benz GL, Audi Q5, Volvo S90.

### SportContact 5P

Porsche Macan, Porsche Panamera, Audi RS Q3.

### SportContact 6

Audi e-tron, Audi Q3, Audi Q5 Sportback, Audi Q8, BMW X3, Mercedes-Benz GLA, Mercedes-Benz GLE, Mercedes-Benz GLE Coupe, Mercedes-Benz GLS.

### SportContact 7

BMW X3, Maserati Levante, Mercedes-Benz EQE, Mercedes-Benz EQS, Mercedes-Benz GLC, Porsche Cayenne.

### CrossContact UHP

Mercedes-Benz ML, Audi Q7, Porsche Cayenne, Mercedes GL, Range Rover Evoque, Volkswagen Tiguan, BMW X5, Volvo XC90.

## Original Fitment - On-road / Off-road

The range of Continental on-road and off-road SUV tyres are engineered to suit a broad range of SUV's and light commercial vehicles. Depending on the vehicle type and lifestyle requirement, Continental offers a tyre application from 50% on-road / 50% off-road, all the way to 90% on-road / 10% off-road. This range covers 15 to 22 inch diameter and speed ratings from 160 km/h to 300 km/h.

## UltraContact

Made to endure.

### Features:

- › Customised tread compound featuring Yellow Chili.
- › Highly durable and protective construction.
- › Noise breakers.

### Benefits:

- › Outstanding mileage.
- › Improved damage protection during everyday driving.
- › Reduced noise for a quiet ride.

**Application:** Small and medium SUV's and Electric Vehicles (EV's).

**Original Equipment Fitments:** None - replacement only.

### Tyre dimensions:

Tyre width in mm - 165 - 235  
Rim size in inches - 14" - 19"

Tyre cross-section - 40 - 70  
Speed symbol - H - V

Yellow Chili

UltraShield Casing

Absorbing Pattern

## EcoContact 6 & 6Q

Setting standards.

### Features:

- › New generation Green Chili with advanced compound technology.
- › Innovative tread design and sipe geometry.
- › Pattern upgrades reduce sound emissions.

### Benefits:

- › Improved rolling resistance and fuel consumption.
- › Better mileage and enhanced dry and wet braking performance.
- › Optimal performance in water channelling and lane-change manoeuvres.
- › Advanced noise reduction for a quiet ride without compromising performance.

**Application:** Compact, medium, large SUV's and Electric Vehicles (EV's).

**Original Equipment Fitments:** Mini Countryman, Nissan Qashqai, Renault Captur, Renault Kadjar, Volkswagen T-Cross, Volkswagen Tiguan, Volkswagen T-Roc, Volvo XC40, Volvo XC90.

### Tyre dimensions:

Tyre width in mm - 185 - 325  
Rim size in inches - 15" - 23"

Tyre cross-section - 30 - 65  
Speed symbol - T - Y

Green Chili

## PremiumContact 6

A new level of comfort.

### Features:

- › Safety-optimised crystal silica compound.
- › Comfort-optimised footprint and a new wear-optimised polymer blend.
- › Handling-optimised pattern design with macro-block shoulder design.

### Benefits:

- › Maximum wet braking performance.
- › Improved ride comfort and lower noise.
- › Maximum control and cornering stability.

**Application:** Compact, medium, large SUV's and Electric Vehicles (EV's).

**Original Equipment Fitments:** Audi e-tron GT, Audi Q8, BMW X1, X2, X5, X6, X7, Ford Kuga, Hyundai Kona, Hyundai Tucson, Jaguar I-PACE, Kia Sorento, Kia Sportage, Mercedes-Benz GLA, GLE, GLS, Mini Countryman, Nissan Navara, Porsche Taycan, Toyota C-HR, Volvo XC90.

### Tyre dimensions:

|                    |             |                    |           |

Safety-Optimised

Comfort-Optimised

Handling-Optimised

## PremiumContact 7

Versatility without compromise.

### Features:

- › Red Chili with innovative polymer compound.
- › Addaptive pattern with micro-block flexibility.
- › Size-specific construction.

### Benefits:

- › Instant performance - no warming-up required.
- › Maximum braking performance even when cold.
- › Pattern geometry that reacts to different driving situations instantly.
- › Responsive handling in the wet or dry.
- › Tailor-made construction provides predictable handling behavior regardless of vehicle type.

**Application:** Compact, medium, large SUV's and Electric Vehicles (EV's).

**Original Equipment Fitments:** Porsche Cayenne, Volkswagen Touareg.

### Tyre dimensions:

|                    |             |                    |           |

Red Chili

Adaptive Pattern

Size-specific Construction

## SportContact 5

The performance tyre, with outstanding handling and control.

### Features:

- › Black Chili compound and macro-block tread pattern design.

### Benefits:

- › Short braking distances in wet and dry conditions.
- › Excellent grip and safety when cornering.
- › Reduced fuel consumption.

**Application:** High-performance and luxury SUV's.

**Original Equipment Fitments:** Ford Kuga, Volkswagen Tiguan, Porsche Macan, Porsche Panamera, Mercedes-Benz ML, BMW X5, Audi Q7, Range Rover Sport, Mercedes-Benz GL, Audi Q5, Volvo S90.

Black Chili

### Tyre dimensions:

**Tyre width in mm** - 205 - 315

**Rim size in inches** - 17" - 22"

**Tyre cross-section** - 35 - 60

**Speed symbol** - V - Y

## SportContact 5P

The super-sports tyre with superior handling.

### Features:

- › Optimised circumferential rigidity reduces movement in the tread.

- › Flexible macro-block design.

- › Black Chili compound.

### Benefits:

- › Exceptional steering precision.

- › Outstanding grip and stability when cornering.

- › Short braking distance on wet and dry roads.
- › Maximum safety and driving pleasure.

Black Chili

**Application:** High-performance SUV's.

**Original Equipment Fitments:** Porsche Macan, Porsche Panamera, Audi RS Q3.

### Tyre dimensions:

**Tyre width in mm** - 225 - 325

**Rim size in inches** - 18" - 22"

**Tyre cross-section** - 30 - 45

**Speed symbol** - Y

## SportContact 6

Designed for sports and high-performance vehicles.

### Features:

- › Black Chili compound with engineered micro flexibility.
- › Force Vectoring pattern and advanced macro block design.
- › Aralon 350, a new adaptive hybrid cap ply.

### Benefits:

- › Ultimate acceleration and cornering on wet and dry roads.
- › Maximum grip in all directions for short braking distance.
- › Maximum control even with small steering movements.
- › Outstanding cornering stability at the limit.
- › Maximum stability for speeds up to 350 km/h.

**Application:** Medium, large, high-performance SUV's and Electric Vehicles (EV's).

**Original Equipment Fitments:** Audi e-tron, Audi Q3, Q5 Sportback, Q8, BMW X3, Mercedes-Benz GLA, GLE, GLE Coupe, GLS.

### Tyre dimensions:

Tyre width in mm - 235 - 335  
Rim size in inches - 18" - 24"

Tyre cross-section - 25 - 45  
Speed symbol - H - Y

Aralon 350

## SportContact 7

Drive your dream.

### Features:

- › Latest generation of Black Chili compound.
- › Size specific SportContact 7 construction adjustments.
- › Pattern geometry reacts to different driving situations and surfaces.

### Benefits:

- › Next level of driving pleasure with extended duration compared to its predecessor.
- › Tailor made for each vehicle size category for the ultimate driving experience.
- › Safe & confident driving in wet or dry conditions.

**Application:** Medium, large, high-performance SUV's and Electric Vehicles (EV's).

**Original Equipment Fitments:** BMW X3, Maserati Levante, Mercedes-Benz EQE, EQS, GLC, Porsche Cayenne.

### Tyre dimensions:

Tyre width in mm - 225 - 335  
Rim size in inches - 18" - 23"

Tyre cross-section - 25 - 45

Force Clustering

Adaptive Pattern

## CrossContact UHP

Transfers 4x4 performance to the road, safely.

### Features:

- › Asymmetric pattern with wide circumferential grooves.
- › Advanced silica technology.

### Benefits:

- › Outstanding safety when braking, excellent cornering performance and reduced risk of aquaplaning.
- › Outstanding dry and wet grip and low rolling resistance.

**Application:** Medium, large and luxury SUV's.

**Original Equipment Fitments:** Mercedes-Benz ML, Audi Q7, Porsche Cayenne, Mercedes-Benz GL, Range Rover Evoque, Volkswagen Tiguan, BMW X5, Volvo XC90.

### Tyre dimensions:

**Tyre width in mm** - 235 - 305

**Rim size in inches** - 16" - 23"

**Tyre cross-section** - 30 - 60

**Speed symbol** - H - Y

## CrossContact AT

Dynamic all-terrain tyre designed for on and off-road use.

### Features:

- › Optimised tread pattern design for improved grip.
- › Wide lateral grooves and open shoulders allow excellent water absorption and expulsion.

### Benefits:

- › Exceptional braking and traction in wet and dry conditions.
- › Superb directional stability.
- › Improved aquaplaning performance.
- › Reduced noise.

**Application:** Off-road biased SUV's and light commercial vehicles.

**Original Equipment Fitments:** Ford Ranger, Land Rover Defender.

### Tyre dimensions:

**Tyre width in mm** - 205 - 265  
**Rim size in inches** - 15" - 17"

**Tyre cross-section** - 65 - 85  
**Speed symbol** - Q - T

## CrossContact ATR

Freedom to enjoy any road.

### Features:

- › Latest technology tread pattern design with large tread blocks and tough compound.
- › Silica tread compound.
- › Noise blockers in the shoulder.

### Benefits:

- › Excellent off-road traction and grip.
- › Outstanding durability.
- › Enhanced directional stability.
- › Exceptional braking and traction in wet and dry conditions.
- › Reduced noise.

**Application:** Off-road biased SUV's and light commercial vehicles.

**Original Equipment Fitments:** Ford Ranger, Toyota Hilux, Volkswagen Amarok.

### Tyre dimensions:

**Tyre width in mm** - 205 - 265  
**Rim size in inches** - 15" - 19"

**Tyre cross-section** - 55 - 80  
**Speed symbol** - S - V

## CrossContact LX2

A well balanced tyre for on-road and light off-road conditions.

### Features:

- › Solidly designed central pattern area and closed shoulder.
- › Highly siped tread pattern design.

### Benefits:

- › Excellent handling and outstanding short braking distances on dry and wet surfaces.
- › Improved water displacement.

**Application:** SUV's and light commercial vehicles.

## CrossContact H/T

Made for everyday. Ready for the unexpected.

### Features:

- › Multi-purpose pattern.
- › Alignment verification system.
- › Balanced construction and tread design.

### Benefits:

- › Ready for any everyday driving situation. Even when the tar ends.
- › Visual wheel alignment check for an extended tyre tread life.
- › Lower noise for a quiet and comfortable drive.

**Application:** SUV's, light commercial vehicles and Electric Vehicles (EV's).

## CrossContact LX Sport

High-performance tyre for on-road use and light off-road terrain.

### Features:

- › Enhanced tread pattern design with stiff tread blocks.
- › Optimised tread compound.

### Benefits:

- › Outstanding handling performance and braking in wet and dry conditions.
- › Reduced rolling resistance.
- › Higher mileage.

## CrossContact RX

All-round performance for your SUV.

### Features:

- › Balanced sipe distribution.
- › Innovative tread pattern design provides multiple gripping edges.
- › Advanced compound technology.

### Benefits:

- › Less road noise for a quiet daily drive.
- › Shorter braking distances on wet roads.
- › Low rolling resistance and improved fuel economy.
